

# NOTICE OF HEALTH INFORMATION PRACTICES

*This notice is included in each family handbook to describe how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully and acknowledge receipt by signing the enclosed form.*

## UNDERSTANDING YOUR HEALTH INFORMATION

Each time you visit a hospital, physician, or other healthcare provider, a record of your visit is made. Typically, this record contains your symptoms, examination and test results, diagnoses, treatment, and a plan for future care or treatment. This information, which we refer to as your health or medical record, is an essential part of the health care we provide for you. It serves as a:

- Basis for planning your care and treatment
- Means of communication among the many health professionals who contribute to your care
- Legal document describing the care you receive
- Means by which you or a third-party payer can verify that services billed were actually provided
- Tool for educating health professionals
- Source of data for medical research
- Source of information for public health officials charged with improving the health of the nation
- Source of data for facility planning and marketing
- Tool with which we can assess and continually work to improve the care we render and the outcomes we achieve

Your health record contains personal health information, the confidentiality of which is protected under both state and federal law. Understanding we expect to use and disclose your health information helps to:

- Ensure its accuracy
- Better understand who, what, when, where, and why your health care providers and others may access your health information
- Make more informed decisions when authorizing disclosure to others

## YOUR HEALTH INFORMATION RIGHTS

Although your health record is the physical property of the healthcare practitioner or facility that compiled it, the information belongs to you. Under the Federal Privacy Rules, 45 CFR Part 164, you have the right to:

- Receive notice of the uses and disclosures we expect to make of your health information, including a paper copy of the notice if requested, as provided in Rule 520.
- Request additional restrictions on uses and disclosures of your health information (*though we are not required to agree to any such request*), or request that we send you confidential communications by alternative means or at alternative locations, as provided in 45 CFR 164.522.
- Inspect and obtain a copy of your health record as provided in 45 CFR 164.526.
- Obtain an accounting of disclosures of your health information made after April 14, 2003, for purposes other than treatment, payment or health care operations, as provided in 45 CFR 164.528.

# NOTICE OF HEALTH INFORMATION PRACTICES

## **OUR RESPONSIBILITIES**

### **We are required by the Federal Privacy Rules to:**

- Maintain the privacy of your health information
- Provide you with a notice as to our legal duties and privacy practices with respect to health information we collect and maintain about you.
- Abide by the terms of this notice, subject to the following reservation of rights.

*We reserve the right to change our health information practices and the terms of this notice, and to make the new provisions effective for all protected health information we maintain, including health information created or received prior to the effective date of any such revised notice. Should our health information practices change, we will post and/or provide a revised notice. We will not use or disclose your health information without your consent or authorization, except as described in this notice.*

## **USES AND DISCLOSURES FOR TREATMENT, PAYMENT, AND HEALTH OPERATIONS, BASED ON YOUR CONSENT**

For example: Information obtained by a nurse, physician, or other member of the office of *EBS Early Intervention* will be recorded in your medical record and used to determine the course of treatment that should work best for you. Your physician will document in your record his or her expectations of the members of your healthcare team. Members of your healthcare team will then record the actions they took and their observations. In that way, the physician will know how you are responding to treatment.

We will also provide your primary care physician or a subsequent healthcare provider with copies of various reports that should assist him or her in treating you. We may also send relevant portions of your medical record to specialists to whom you are being referred for care, or to physicians whom your providers here may want to consult on a care issue.

We may use and disclose health information about you (for example, by calling you or sending you a letter or card) to remind you that you have an appointment with us for treatment or that it's time for you to schedule a regular checkup with us, or to provide you with information about treatment alternatives.

## **WE WILL USE YOUR HEALTH INFORMATION FOR PAYMENT**

For example: A bill may be sent to you or your insurance company or health plan. The information on or accompanying the bill may include information that identifies you, as well as your diagnosis, procedures, and supplies used.

## **WE WILL USE YOUR HEALTH INFORMATION FOR REGULAR HEALTH OPERATIONS**

For example: Members of the office of *EBS Early Intervention* or members of a quality improvement team may use information in your health record to assess the care and outcomes in your case and others like it. This information will then be used in an effort to continually improve the quality and effectiveness of the service we provide.
